

# Sea Star EcoCruising Society Membership

## Terms of Service for General Membership

Your annual membership helps to provide this non-profit organization with support to carry out our mandate of providing reliable community marine transportation to the people of our operating area and to support educational touring and access to marine parks within our Salish Sea.

We offer two levels of annual membership to the general public in order to access the use of our services.

### **Founding Member** - \$500

Provides the member access to all Society tour, water taxi and charter services but does not include services to private islands (unless you are a resident of the private island). This is an annual membership for a term of one year. Founding members may choose to have their name on one of our Sea Stars on our vessels and recognition on our website as well. We also offer a Founding Member discount of 15% off the member rate on your first tour/charter or water taxi service. After that, the member rate applies as published on the website.

### **Individual Member** - \$25

Provides the member access to all Society tour, water taxi and charter services but does not include services to private islands (unless you are a resident of the private island). This is an annual membership for a term of one year and entitles you to the Member Rates as published on the website.

All Members and their Guests must comply with public health and safety rules and Sea Star Policies. Our Skippers have the authority to refuse service to anyone for reasons of safety, behavior, or non-membership.

We offer a full refund if you cancel with 48 hours notification prior to your booking time. If you cancel 24 hours before your booking time a \$50 fee will be applied. For less the 24 hours notice of a cancellation a \$100 fee will be applied to your refund.

We offer a full refund policy if your service must be cancelled by us for any reason. Weather is of course the primary safety factor on our tours and we will give as much notice to you as possible. Please ensure we have your correct contact information.
